AMENDMENT

Please amend claim 1 as follows:

1. (Amended) A golf putter [for putting a golf ball] comprising:

a putter head, a hosel attached to the putter head, a shaft receiver on the hosel for receiving a shaft, the putter head having a heel portion at one end and a toe portion at the other end, a striking face, and a contoured top surface;

a marking formed on said contoured top surface, said marking having a straight line portion and a curved portion, said curved portion having a radius of curvature which is [a function of a distance from] equivalent to a radius of curvature of a circle having a radius extending from an approximate center point of [said] a regulation size golf ball to a point where said straight line portion bisects said curved portion of said striking face when said golf ball is abutting said striking face.

Please cancel claim 6.
